Response to reading If I were Maniac Magee, I would not have run away. He is only eleven years old and going to be on his own. That would be scary to be all alone at that age.

Response to reading Amanda had a choice to make. She had to decide if she was going to let Jeffrey borrow a book or not. She did let him borrow it. We do not think this is a good choice because he does not even have a place to live.

Response to reading I would recommend this book. This book is suspenseful. The chapters end making me want to read more - In the end of the chapter (4) it says he caught and punted the football with one hand!

Response to reading The author did a great job in chapter 5 making a movie in my mind. When he showed how scared Arnold Jones was, he said, "his teeth are chattering like snare drums." Also, he described Maniac saying, "hauled him out like a sack of flour."
